EIGHT CYBER FALCON HABITS FOR Home

Children learn online safety best from the grown-ups they trust. These small habits make a big difference.

1 Keep screens in family spaces.
Use devices in shared rooms like the living room, not behind closed doors.

2 Promise: telling never gets you in trouble.
Children hide problems when they fear losing their devices. Thank them for telling you.

3 Turn on child accounts and parental controls.
Set them up on phones, tablets, apps and game consoles.

4 Check age ratings.
Look at the rating before downloading an app or game.

5 Practice Stop and Think together.
Fake prize, parcel and bank messages on SMS and WhatsApp fool adults too. Talk about them out loud.

6 Keep locations private.
Turn off location sharing in apps and review privacy settings together.

7 Lock family accounts well.
Use long, unique passwords and turn on two step verification.

8 Explore together.
Play their games and ask at dinner: "What did you see online today?"

TALK, LISTEN, ACT

DINNER TABLE QUESTIONS

- What was the best thing you saw online today?
- Did anything online make you feel confused, worried or upset?
- Which game or app do you like most right now? Can you show me?
- Has anyone you do not know sent you a message?
- If a message said you won a prize, what would you do?
- Who would you tell if something online felt wrong?

THE SIX PEARLS

-  **Secret Key Pearl:** Keep your passwords secret and strong.
-  **Stop and Think Pearl:** Stop and think before you click.
-  **Treasure Chest Pearl:** Keep your private information private.
-  **Falcon Eyes Pearl:** People online may not be who they say they are.
-  **Kind Words Pearl:** Be kind online, just like in real life.
-  **Dana Pearl:** When something feels wrong, tell a trusted grown-up.

IF SOMETHING GOES WRONG

- 1 Stay calm and say thank you.** Your child came to you. Praise them for telling, even if they made a mistake.
- 2 Do not reply.** Do not answer the scammer, bully or stranger, and do not send money or codes.
- 3 Save the evidence.** Take screenshots of messages, names and dates before anything is deleted.
- 4 Block and report.** Use the block and report buttons in the app or game.
- 5 Secure accounts.** If a password was shared, change it now and turn on two step verification.
- 6 Get help.** For threats, blackmail or anything serious, contact your country's official cybercrime reporting service and the school.

OUR FAMILY online AGREEMENT

Read it together, tick each line and sign it. Put it on the fridge!

AS A CYBER FALCON, I PROMISE

- ☐ I keep my passwords secret, except from my parents.
- ☐ I ask before I download a new app or game.
- ☐ I use devices in family spaces, not behind closed doors.
- ☐ I never share my address, school, phone number or photos with people I do not know.
- ☐ I stop and think before I click on prizes, links or downloads.
- ☐ I am kind online and I do not share mean messages.
- ☐ If something feels wrong, I tell a grown-up. Telling never gets me in trouble.

AS YOUR GROWN-UP, I PROMISE

- ☐ I will listen calmly and thank you for telling me.
- ☐ I will not take your device away just because you told me about a problem.
- ☐ I will learn about your games and apps with you.
